1. SOVIET TROOPS IN THE GRASSA RD

Item	Date	a. Interrogator	b. Source Employment	c. Installations	d. Location	e. Occupations	f. Remarks
GRASSA (45000 N. 50000 S.)	1948 to May 1948	a. H b. work in the harbor area		a. Barracks (one mul- ti-story brick-build- ing, about 300 feet long)	Opposite the naval harbor on the southwest side of the trunk road	Naval unit	Another PW (P-3) told interrogator (C) that he observed a large barracks build- ing (three-story brick-building with surrounding wooden fence) occupied by about 200 naval troops on the trunk road lead- ing through the harbor area in June 1948
				b. Garage (165x65 feet) and small administra- tion building	Opposite the Naval Bar- racks	About 20 trucks of the Army	
	1948 to May 1948	a. H b. work in a factory near the freight sta- tion		AA gun emplacement	On a hill about 3,000 feet north- east of the freight station	72 guns of about 75 mm cali- ber and several light AA guns. Troops in the empla- cement were frequently ob- served drilling. Another emplacement with four light AA guns was in the western city sector	
	1948 to March 1948	a. H		1. AA gun emplacements	Coastal area southeast of the harbor railroad station	Numerous AA gun emplacements with gun barrels of about 70 mm caliber. Firing practice at towed aircraft targets was observed	Another PW (P-3) told interrogator (F) of the following observations made on the road to NIKO- VAIR in August 1948: a. Tank unit with 25 to 25 T-34 tanks (5 bogie wheels) in a tent camp.

CHINA	1945 to 1948	1. Barracks	Northeast of the city, on both sides of the highway to NIKOLAYEV (40°55'N/31°50'E)	Troops stationed at more than 10,000. Numerous tanks and heavy AA guns were seen.	6 miles northwest of CHENSA. A large number of tanks about 8 miles northeast of CHENSA. Numerous tank laying vehicles were seen. 20 to 24 AA guns of 80 or 100mm caliber and searchlights in improved emplacements near the tank camp.	
	1945 to 1948	2. AA gun emplacements	Southeast of the freight station	Occupied to capacity by a unit of unidentified branch of service. 15 heavy tanks were seen between the barracks and the cemetery in 1947.		
	1945 to 1948	3. Barracks (seven brick buildings, 100x100 ft., boiler house, target range)	About 5 miles south of the CHENSA main railroad station, on the western side of the road (with streetcar line) to BOLSHOI FORTAN. About 4 miles northeast of the city.	Military school, called Infantry School, headed by a general. Trainees arrived in civilian clothes and were issued uniforms in the barracks. They wore three yellow crosses-braids on the epaulettes.	Another PW (P-3) told interrogator (G) that he worked in an artillery school and an infantry school about 5 miles south of CHENSA, in early 1947. The schools were near a streetcar stop.

CHESNA (cont'd)					Resides Soviet trainees, about 300 Yugoslav officers ranking from second lieutenant to major were seen in the Summer of 1947. Six week courses including theoretical and political training in lines of duty and firing with live ammunition. No heavy weapons were observed.	Soviet and Yugoslav officer candidates were seen in both schools, about 150 trainees in each. The trainees were instructed with mortars.
TIRASPOL (46°50' N/28°30' E)	October 1948	a. F b. work as brick layer in the town area	Barracks	Unidentified	Motorized infantry unit of one regiment (three battalions), armed with submachine guns, new rapid-fire rifle, medium and heavy mortars and 75.2-mm AT guns	Another PW (P-3) told interrogator (P) that he saw artillery units leaving TIRASPOL in September 1948. The guns were towed by small caterpillar tractors.
	Feb to February 1948	a. F	Barracks (three three-story buildings, 260x50 feet, two stables, 260x65 feet and one garage)	Between the town and the railroad bridge across the Dniester River, north of the railroad line	Infantry unit on which no data is available	
CHESNA (46°45' N/28°45' E) (TIGHINA)	early 1948		Former fortress installations (five three-story brick-buildings and one four-story brick building with flat roof, 20-foot high walls)	North of the town	Artillery unit of about 2,000 troops wearing black uniforms with a cross-shaped emblem. General KOHLIKOV was CG of the unit	Another PW (P-3) told interrogator (P) that he learned from fellow PWs of a signal unit stationed in BENDERY in the Fall of 1948.

KISH, NEW (45° 00' N / 28° 50' E)	October/ November 1948	a. 1. Quarters b. construction of large white which work in building the city area	On Gogolevskaya, city center	Headquarters of border troops of the Moldavian SSR		
		2. Quarters	Unidentified	Headquarters of Gen- eral ORLOV, CG of the Moldavian SS		
		3. Barracks	On the city western perimeter	Tank unit with more than 100 T 34 tanks. Numerous rocket launchers and some AT guns were seen at this unit.		
		4. Quarters	Northern city sec- tor, west of the railroad line to JASSY	Infantry unit of very young troops, frequently seen leaving their quarters.		
Up to November 1948	a. C b. work in the barracks area	1. Barracks (brick-build- ing, about 500x200 feet and fenced- in park)	Southern city sector	Artillery unit of about 400 men, observed in dry runs 20 to 30 guns of 122 mm caliber, about 50 mortars of 120 mm cal- iber and eight to ten AA guns of 37 mm caliber were seen in the square opposite the bar- racks. New tractors and about 100 trucks arrived in July 1948.		Another PW (F-3) confirmed the artillery unit to the same interrogator. The unit was in the southern city sec- tor and was equipped with 20 AA guns of 75 mm caliber, 20 guns of 105 mm caliber, 5 rocket launch- ers, 10 guns of 37 mm caliber and light and heavy infantry weapons in November 1948.
		2. Barracks	Opposite a busi- ness factory	Called "Infantry Barracks" where a garrison unit was to be quartered according to a Soviet entry. The barracks were under con- struction in the Fall of 1948.		
1948 to November 1948	a. C b. work in (new building) the city area	1. Quarters (new building)	Southeast of Fish- kin Park on the street parallel to Lenin Street.	Directorate of Border Troops		Occupied by two border police com- panies, as learned from a fellow PW.
		2. Quarters (new building)	On the city north- western perimeter	MVD Directorate. An MVD general frequently inspected the unit.

100x150 feet

5. Military
quarters (three-
story angular build-
ing, 100x150 and
100x150 feet)

City center, about
3,000 feet northeast of
the main railroad
station

About 100 miles north
of the Northern Ship-
yard

Troops performing main-
tenance work were observed

Called "Naval School," oc-
cupied by naval officers

Two or three rocket
launchers of medium ca-
liber were observed be-
ing fired with live ammu-
nition

Another PW (F-5) con-
firmed to interrogator
(B) that a naval school
(angular building, 650x
500 feet, with wall and
iron fence) was in the
area center in January
1948. This school was
occupied by about 200
naval officer candidates
after 1 September 1947
